

FOR IMMEDIATE RELEASE

AUSTRALIAN EXPANSION DRIVES GAMUDA'S ORDERBOOK TO RECORD RM44 BILLION.

Petaling Jaya, 6 March 2026

The Group capped this quarter with a significant expansion of its Australian footprint, pushing its outstanding construction orderbook to a record high of RM44 billion.

Driven by its largest Australian win to date, the AUD2.7 billion Sydney Metro West – Stations Package West, the Group ended the quarter securing a combined RM9.5 billion in new infrastructure and energy projects.

Meanwhile, the Group posted a 5% rise in its quarterly net profit to RM230 million, alongside a 9% rise in revenue to RM4.4 billion. This performance was primarily driven by robust contributions from ongoing domestic construction projects and the successful execution of quick-turnaround projects (QTPs) in Vietnam, exceeding sales targets.

For the first half of the year, the Group's net profit rose 5% to RM445 million, and revenue grew 1% to RM8.3 billion.

Half-yearly property sales decreased 9% to RM1.6 billion as Celadon City in Vietnam was completed last year and having fast sold out its available products, therefore the Group is proactively expanding its strategic landbank to boost its QTP portfolio with four new acquisitions. Property sales are expected to pick up strongly as new phases are brought to market.

Looking ahead, the Group's resilience is underpinned by its all-time high RM44 billion orderbook and an unbilled property sales record of RM8 billion.
